

# Lydia Bock-Holt

*"It's what I like doing, and it's fun!"*

Lydia is the twelve year old daughter of Mike and Andrea Holt. Lydia is a joy to have in the children's choir and her private piano lesson! One of Lydia's musical goals is to play on her worship team at church, and "not cry when I have to play chords." Lydia has been working very hard on learning how to read chords, and in our last recital she played from her first fake book! Lydia impresses us with her hard work ethic and ability to take constructive criticism and use it to make positive changes in her music. She is enthusiastic, kind, and passionate about music!

## Student of the Month

She likes "how small and one-on-one the private lessons are"

Lydia's New Studio

She appreciates the random comical things that happen in the choir
